Slaughtering Take 72.5% Of Offers At Stronger Prices

With an outstanding sale of eight creep-fed heifers bringing \$19.10 per cwt., this week's calf sales were stronger with a substantial number on hand, despite the continued rainy weather.

Utility slaughter steers brought up to \$15.50 and commercial topped at \$12.50.

Some good calves went to slaughterers at \$20.00 with all calves particularly good.

Cattlemen are reminded that they can celebrate Independence Day for there will be no sale on Monday, July 4th; however, Wednesday, July 6th will be regular sale day.

Combined sales: 1,219 cattle \$72,708.98.

MONDAY, JUNE 20
813 cattle, \$48,751.72, 177 heifers, 149 calves, 156 cows, 202 steers, 32 pigs, 5 bulls, \$51 mixed, 69 per cent of number and 73 per cent of money to slaughter.

STOCKER
Cattle: 18,000-18,250, Cull 13,000-13,500, Cull 10,000-10,500, Cull 7,500-8,000.

HEIFERS
Cattle: 18,250-19,000, Cull 11,750-12,500, Cull 9,000-12,500, Cull 8,000-8,500.

Calves
Good 18,250-20,000, Cull 16,000-17,500, Cull 12,500-15,500, Cull 10,000-12,000.

Cows
Cattle: 12,000-14,000, Cull 9,000-12,000, Cull 7,000-11,500.

Bulls
Cattle: 14,750-16,000, Cull 11,500-14,000, Cull 8,250-12,500, Cull 7,500-10,000.

Vacation Program Enrolls Over 200

Belle Glade Municipal Park is teeming over with activity this week as the Summer Recreation Program at the Municipal Park, enrolling children for activities of all kinds. Shown, seated left to right, is Coach Calvin Peacock, Jack McCaskill and Coach Hector Ouellette, to the right, Mrs. Gladys McDonald, park supervisor. Also assisting is Miss Norma Jean Royals, not in picture.

City Hall Workers Get 40-Hour Week

The City Commission, Wednesday night granted a 40-hour work week to all City Hall employees, and voted to continue its bi-weekly meetings on Wednesday nights.

City Manager Robinson reported to the Commission that an agreement has been reached with Central and Southern Florida Flood Control District to immediately rebuild the city street paralleling the Hillsboro between the Chosen and the Main street bridge. A slag and standage finish who had been on the street, according to Mr. Robinson.

Miss Winifred Burry Is 15 Years Old

Miss Winifred Burry, daughter of Mr. and Mrs. Milton Burry of Belle Glade, Fla., has been named to the dean's list at Wesleyan College for the second semester. She is a freshman, and graduated with honors from the Belle Glade High School last June.

R. A. To Attend Camp

Royal Ambassadors of the First Baptist Church, Belle Glade, leaving Monday for a week at Camp in Tampa for a week. They will be accompanied by Tommy Simmons, Alvin Schlechter and Gary Norman.

BG Team Plays First Home Game Sunday

Sunday afternoon at 2:30 p.m. Belle Glade will play its first home game. Lake Park will be the visiting ball club, and it will also be the first meeting of the two teams.

Mania For More Ruess

"There are those who live out all their days under the grinding wheels of mortgage debt, and never pause, though long enough to measure the distance they have already traveled," Dr. Roy McClain will say in his Baptist Hour talk on the Tenth Commandment, "Thou Shalt Not Covet."

UES TO WORK WITH THE MANSIONS ON BLOOD BANK

Belle Glade Chapter of Order of Eastern Star held its final meeting until October on Thursday evening at the Benevolent.

Representative Rogers' Maiden Speech Effective On Flood Works

Two freshmen Florida Congressmen won the plaudits of the entire Congress last week for an unusual bit of fast legislation. Representative Rogers' maiden speech was effective on flood works.

Lions Closing Out Cattle Operations For Swimming Pool

An organization effort that involved the community but sponsored by the local Lions Club is about to be closed out with the notation "SUCCESSFUL" on the front of the file.

Youthful enthusiasm backed by experienced business and cattle men, and supported by mass labor, ingenuity and a steading faith in community and purposeful objectivity, has resulted in an approximate \$1,800 cash fund for the Belle Glade swimming pool.

Lions Hear About Fish From Commission Expert

Fred Stansbury of the Game and Fish Commission told Lions Wednesday of the work being done by the Commission towards ridding streams and lakes of the rough fish through the shock method. It seems that the shock causes all fish to come to the surface where the rough fish may be selected and taken out. Other fish, after a recuperative spell, resume the normal activities of the species.

VENUE "A" CHANGES BRING IMPROVEMENTS

Forrest Fabrics formerly on south side of Avenue "A" has moved and will share quarters with the Glades Five and Ten also owned by the Forrests.

High School Doors And Walls Smeared By Vicious Vandals

Sunday someone with a warped idea of entertainment on a rainy afternoon smeared the walls with much raw pictures, left written messages and otherwise generally "mess"ed-up the appearance of the outside building, up and down stairs.

South Bay Growers Ending This Season With Corn & Celery

The week ending July 2nd will see the ending of the 1955-56 shipping season of winter vegetables, as the South Bay Growers complete the crop of celery and sweet corn.

Local Girls Attend Rainbow Assembly

Announcement of the meeting of the local Order of Rainbow Girls who left Thursday morning to attend the three-day assembly of the Grand Assembly of the Order convened Thursday thru Saturday at the Hotel Duquesne in New York City.

Armory Petition Goes To City Com.

John H. Crematich, commander of the Belle Glade Infantry Rgt., Florida National Guard, in a letter to City Commissioner, requested the City Commission to appropriate \$25,000 toward money to be located at Belle Glade.

Historical Ventures Of Oldtimers Emphasize Mucklands' Distinctiveness

Roscoe Braddock, whose barefoot days in the muck definitely place him in the category of an "oldtimer" sponsored a program at Rotary Friday that emphasized the history of the mucklands.

Royals-Duda Teams Given Barbecue

Managers of Pony Leaguers Royals and Duda and Sons, teams, Billy Eggleston and the Blacklands of her native Ohio.

Wanted, Two Trucks!

Two trucks and drivers are urgently needed to transport material to the Hillsboro area every Tuesday and Thursday, by Coach Hector Ouellette, superintendent of the Summer Recreation Program. Beginners swimming on Tuesday morning at 10 a.m. and all groups on Thursday afternoon, Call City Park 3460.

South Bay Growers Ending This Season With Corn & Celery

The week ending July 2nd will see the ending of the 1955-56 shipping season of winter vegetables, as the South Bay Growers complete the crop of celery and sweet corn.

Local Girls Attend Rainbow Assembly

Announcement of the meeting of the local Order of Rainbow Girls who left Thursday morning to attend the three-day assembly of the Grand Assembly of the Order convened Thursday thru Saturday at the Hotel Duquesne in New York City.

Armory Petition Goes To City Com.

John H. Crematich, commander of the Belle Glade Infantry Rgt., Florida National Guard, in a letter to City Commissioner, requested the City Commission to appropriate \$25,000 toward money to be located at Belle Glade.

Historical Ventures Of Oldtimers Emphasize Mucklands' Distinctiveness

Roscoe Braddock, whose barefoot days in the muck definitely place him in the category of an "oldtimer" sponsored a program at Rotary Friday that emphasized the history of the mucklands.

Interesting Facts On Tarpon Are Disclosed

Research on tarpon, one of the most popular of the world's game fishes, is underway at the Marine Laboratory of the University of Miami. Funds for this research were made available by the International Oceanographic Foundation through the generosity of one of its members, Roger Firestone of Fort Lauderdale, and through the interest of Ernest Mitsch, director of the Florida State Board of Conservation.

The catch of the first tarpon on red and reef was credited to Samuel H. Jones of Philadelphia, Pa., who hooked, fought and landed a 172-pounder while fishing at Indian river inlet in the winter of 1884. Since that time, uncounted numbers of anglers have sought and caught these wily gamblers, not only in Florida but also in the Bahamas, Cuba and the West Indies, Central America, West Africa and many other favored fishing locales.

However, although tarpon are familiar to anglers as a great game fish, very little actually is known about its life history—migrations, growth rates, places or times of spawning, age at maturity, numbers of eggs contained in the female roe, sex ratios, feeding habits, parasites and longevity. Answers to all these problems are expected to be revealed through the research now being carried on by the lab.

Sports fishermen and commercial fishing interests are aided in the research program in many ways. For instance, information is sought on the time of the year when tarpon are most plentiful in various areas where these gamblers occur. Likewise, the laboratory would appreciate information on when

and where female tarpon are found full of roe, where small tarpon are plentiful, and scale specimens accompanied by information on the length and weight of the tarpon from which the scales are taken and where and when such tarpon were caught.

The research is being carried out by Robert W. Ellis, research assistant, under the supervision of Mr. Gilbert Voss, who is in charge of the Marine Laboratory's fish life history project.

PAHOKEE CELEBRATES INDEPENDENCE DAY

A Gladesville Fourth of July program sponsored by the Pahokee Chamber of Commerce, for residents of all Lake Okechobee communities, will begin Monday, July 4, with a barbecue from 9 to 7 p.m.

The celebration will be climaxed by a fireworks display at Pahokee Pier at 8:30 p.m., according to Pahokee C.C. President M. P. Stanley.

The Uphroegre Quartet, and the Cee Jays Band of Belle Glade will present the musical portions of a program to begin at 7:30 p.m. at the waterfront. Honored guests will be the members of the Palm Beach County Commission and the mayors of the various towns.

The barbecue, sponsored by Pahokee-Canal Point Lions, will be served at the Pahokee waterfront, or at the Elks' club on E. Main St. Adult tickets will be \$1, children 50 cents.

Leonard Dobrow will be master of ceremonies for the program. The Pahokee American Legion and Pahokee Lions Troop 28, both of which are assisting the Chamber Board of Directors in executing the first Gladesville July Fourth celebration.

2:00 to 3:00 p.m.—Quiet hour; croquet; shuffleboard; ping pong; badminton; table games.

3:00 to 4:00 p.m.—Softball (girls); dodgeball (boys); track and field.

4:00 to 5:00 p.m.—Softball (boys); horseshoes.

7:30 to 9:00 p.m.—Square dancing.

REP. ROGERS' MAIDEN

(Continued from Page One)

recommendation of \$10 million was made to the Budget Bureau by the Corps of Engineers as the amount necessary to carry on this project effectively; however, the Budget Bureau recommended \$6,300,000 to the Congress. The House Appropriations Committee cut the Budget Bureau's request to \$3 million, which sum is entirely inadequate to carry on the vital work of this project.

"Funds for this project are necessary to save lives and to save property. Great progress has been made since this project was authorized, and I feel that the cut recommended by the Appropriations Committee would be disastrous.

"I would like to bring to the attention of the Members of the Congress that during the rainy season of 1953 every county in the central and southern Florida flood-control project was declared a critical emergency area by Presidential order, and suffered to such an extent that they were designated by the Secretary of Agriculture as areas where the Farmers' Home Administration could make disaster loans.

"The State of Florida to date has more than met its proportionate share of the cost of the Central and Southern Florida control project. I feel that the Federal Government should do its part and appropriate necessary funds for the essential work this project performs, and in which the Federal Government already has a heavy investment. I would also like to point out that the Corps of Engineers has advised that the benefit-to-cost ratio for the first phase of this project is 6.55 to 1, which I understand is the highest ratio for any project of comparable size in the country.

"I strongly urge that the Budget Bureau's recommendation in the amount of \$6,300,000 be restored for the vital work of the central and southern Florida control project.

On subsequent voting for the amendments, the amount cut

by the Committee was restored, a creditable victory for the Members who fought and won the battle for their project.

HISTORICAL ADVENTURES

(Continued from Page One)

were nevertheless, didn't "hank" after intimacy with enforcement officers.

One murderer, dodging the law, used the various jurisdictions of counties bordering the Lake to successfully evade capture until the several sheriffs asked that all of Lake Okechobee be put in one county—Palm Beach.

The Belle Hotel was built at Lake Harbor in 1910 from barges and in 1911 a hotel was built in Okechobee. After taking prospective purchasers over to Winnie's Cove to see Mrs. Winsor's vegetable garden for a "while" of their own in window boxes at the hotel and sold mudlands "in the bottle," as Pop Evans says.

The first formal election held in the Glades was in 1915 and by 1916 Rital precinct was the largest in the County.

Belle Glade's first post office was set up in the early 20's in the grocery store of Mr. Wm. Badger, having been gradually transferred from Rabbit Island where it had been since 1916.

"Pop" Evans bought a piece of land on the Belle Canal just west of the Hillsboro in '17 and moved here in '18. Pop says he was among a bunch of "suckers" who bought land "in a bottle."

The recitation of serious and amusing events of the early days was listened to intently by Rotarians, and many could have continued as an audience for hours.

Mr. Bradcock was complimented on arranging the program and the participants were roundly applauded for their participation.

Petroleum Marketers Oppose Tax Increase

Petroleum marketers today went on record as unalterably opposing the proposed increase in the federal tax on gasoline and diesel fuel in a statement today by J. H. Williams, Jr., president of the Florida Petroleum Marketers Association.

The group is a state wide organization of oil jobbers. The Congress is considering increasing the federal tax on gasoline by

50 per cent from 2 cents to 3 cents and on diesel fuel by 200 percent from 2 cents to 6 cents per gallon.

The proposed tax hikes are being urged to finance a National Highway Program. "Why should gasoline consumers pay the whole cost of a highway program that's supposed to serve national defense?" Williams said.

"I can't defend everybody's business! They don't impose special taxes on row boats to finance the U. S. Navy."

If the federal levies on gasoline and diesel fuel are linked

to the federal highway program, the oil jobbers fear it will herald further encroachments in the field of state's rights, Washington will be calling the highway tax and before long will be telling the states to increase their rates.

The Tampa oil man pointed out that the present combined state and federal imposts on gasoline and diesel fuel make a total sales tax levy of 44 cents in Florida, meaning that gasoline and diesel fuel are taxed "way above luxury taxes."

Paint Rough Exterior New, Easy Way

Painting of non-frame exteriors is now more fun than hard, thanks to new painting techniques made possible by the advent of the painting roller and the outstanding qualities of a new vinyl latex finish for outside surfaces, such as concrete, brick, cement block, asphalt shingle and stucco.

Paint rollers, clamped to extension poles, bring even second stories within ground-level reach, and eliminate hazardous scaling in stairwells and similar awkward-to-paint areas.

A new vinyl latex exterior finish, Spred Glide-On, is applied quickly and easily and provides a uniform and durable coating which is impervious to water.

A pioneer vinyl latex finish, the Glide-On "Breathes" moisture from the inside, for it has a unique molecular structure recently created by the Glides Company, which permits the passage of moisture vapor, escapes from inside a structure, and keeps the exterior finish from cracking and chipping and won't fade. It can be washed down, when soiled, simply by applying water through a garden hose.

KEEN KUTTER CUTLERY & TOOLS — GLIDDEN PAINTS

Phone 2520 241 So. Main—Belle Glade, Fla.

Painting of non-frame exteriors is now more fun than hard, thanks to new painting techniques made possible by the advent of the painting roller and the outstanding qualities of a new vinyl latex finish for outside surfaces, such as concrete, brick, cement block, asphalt shingle and stucco.

Paint rollers, clamped to extension poles, bring even second stories within ground-level reach, and eliminate hazardous scaling in stairwells and similar awkward-to-paint areas.

A new vinyl latex exterior finish, Spred Glide-On, is applied quickly and easily and provides a uniform and durable coating which is impervious to water.

A pioneer vinyl latex finish, the Glide-On "Breathes" moisture from the inside, for it has a unique molecular structure recently created by the Glides Company, which permits the passage of moisture vapor, escapes from inside a structure, and keeps the exterior finish from cracking and chipping and won't fade. It can be washed down, when soiled, simply by applying water through a garden hose.

Reverence is one of the signs of strength; irreverence one of the surest indications of weakness. No man will rise high who jears at sacred things. The fine loyalties of life must be revered or they will be forewarned in the day of trial.

TOUCH A BUTTON FOR COOL CLEAN AIR!

Years for as little as \$266 A WEEK

Amazing Built-in Weather Bureau!

Press a button for the weather you want! See greatest new advance in room air conditioning.

COOL! The cooling power of 15 refrigerators... For less than the price of one. Circulates air and ventilates... Also cools a draft!

GRAND! Overruns filters catch dust, dirt, pollen! Help relieve allergies of hay fever, asthma. Keeps rooms cleaner. Cuts dry cleaning bills.

BREATHES! Removes up to 30 spots every minute! A dry, keeps air healthful! Dry. No pipes, clogs or building alterations needed.

Southeastern Bottled Gas

ers were Ross Winne, of Chosen, Fred Farmer, brother of the bride, and Herbert Priest, of Chosen, brother of the groom.

Following the ceremony a reception was held at the home of the bride's parents in the rooming house. Mrs. Farmer, wearing a street length gown of dark aqua silk with white accessories and a purple orchid corsage. Mrs. Burke wore a blue crepe street length gown with three quarter length sleeves, white accessories and purple corsage. Assisting at the reception were Mrs. C. M. Greene, serving cake, Mrs. A. J. Harville at the punch bowl and Miss Gloria Crosby in charge of the bride's book.

For traveling Mrs. Burke chose a suit of ecru colored faille with three quarter length sleeves, matching accessories of brown and a garnish of white orchids.

The couple will be at home in Chosen, following a wedding trip to the East Coast for a week. They plan to reside there for the summer and then live in Gainesville.

Mrs. Burke is a graduate of Belle Glade High School class of '51 and is presently employed by William Rhodes, Certified Public Accountant.

Mr. Burke is also a graduate of local high school class of '51 and is currently a senior at University of Florida, where he played varsity football on the Gator Team. He will be freshman football coach for the first fall and will intern the second semester and receive a master's degree in June. He is a member of Alpha Gamma Rho fraternity.

Out-of-town guests were Capt. Fred Farmer, J. Jackson, S. C. Shelby Farmer, Marjorie Farmer, Dan Farmer, Frances Parker of Headland, Ala.; Mr. and Mrs. William Thompson, Mrs. Victor Hays, Mr. and Mrs. Ray Axford, Ft. Lauderdale; Dick Midick, Miami.

fibers which are abundantly furnished with feeding tips. These thickened ropelike roots are storehouses for water and nutrients that enable the Day Lilies to survive environmental conditions that would prove lethal to ordinary herbaceous plants.

Over much of Florida the Day Lily season opens the first of March with the early yellow and reaches its climax in April and extends well into June. The older deep hued blossoms come at midseason and an important job for plant breeders has been the creation of reds, purples and pinks that bloom dependably in March and April.

Since the 1930's several Floridians have been busy in selective breeding of Hemerocallis. From the hands of these gardeners have come many worthwhile Day Lilies. Some are widely distributed garden favorites, others are rare collectors' items.

This matter of hardiness is closely tied up with continuous growth. The far north plants must shed their leaves and become fully dormant in the autumn. Who garden in Florida have come to appreciate the evergreen varieties.

Day Lilies adapt themselves to a greater variety of soils and climates than any other perennial. They thrive in sun or shade, in dry or wet soils and they may be planted in groups or borders. However the particular varieties of the north do not thrive well here, nor do Florida day lilies do well in the north or midwest.

Day Lilies are probably most effective when grown in clumps of three or more plants in the border of informal shrubbery.

their colors better if they are grown in afternoon shade. The pale lemon sorts, the heavily pigmented reds, and purples, the light pastel pinks and buffs are best when they are given partial protection from the sun. The deep-hued varieties are unstable in strong light.

Monday, July 3 and 4. A downtown parade is scheduled for 3 p.m. Saturday, July 2.

WASHINGTON NEWS LETTER

WASHINGTON — Hurricane season: The Department of Commerce Appropriations bill as recommended by the Senate Appropriations Committee contains funds for the establishment of a weather ship to be stationed in the Gulf during the hurricane season. This is good news for Floridians in that it will aid in providing much needed advance warning during storm weather.

The Senate Appropriations Committee has recommended sufficient funds to continue operations during the next fiscal year of the Vero Beach and Marjanna CAA Airway Communication Stations. We are all hopeful that the House will approve the Senate's action.

Restoration Fight in View: The Senate Appropriations Committee swung a heavy axe on Florida Public Works projects. This is somewhat discouraging — particularly when we see the Central and Southern Florida Flood Control cut from a recommended \$6,000,000 to \$3,000,000, and the very important Tampa Harbor Project slashed from \$97,000 to \$500,000. Other Florida projects farmed a little better. \$418,000 was recommended for the improvement of the Apalachicola River Channel; and funds were al-

so included, though not earmarked, for the cut across the St. George Island as well as for snagging and clearing of the Oklawaha River. The cuts, however, came as a blow. I am fully aware of the need to balance the budget, but I do not think we should cut economically sound and justified domestic projects—while voting billions for foreign aid. Cutting projects which have a high benefit to cost ratio is penny-wise and pound-foolish. Senator Holland and I are expecting a tough up-hill fight to restore the cuts when the matter is before the Senate.

Religion Identification: Numerous inquiries have been received on behalf of legislation which would allow members of the Armed Forces to designate the Eastern Orthodox faith as a religious preference on their identification tags. I am very happy to advise that action on this legislation will not be necessary, since the Department of Defense has concluded that the purpose of this legislation can best be accomplished by administrative means, and is presently initiating action to determine the best method for providing identification of each individual's religious belief, including the Eastern Orthodox faith.

Attention Aluminum Industry: Dr. Arthur Flemming, Director, advises that his Office of Defense Mobilization is diverting to independent aluminum users the entire third quarter stockpile requirements.

Fishkill: Good news for Florida public works projects: The House of Representatives today voted to restore all cuts made by the House Appropriations Committee for these projects. The bill as passed by the House now provides: \$6,300,000—For the Central

and Southern Florida Flood Control Projects. \$971,000 — For the Tampa Harbor Project. \$920,000—For the Jim Wood. \$418,000—For the improvement of the Apalachicola River Channel.

Unearmarked amounts for the cut across the St. George Island and for snagging and clearing of the Oklawaha River. This action is in line with the amounts recommended by the Bureau of the Budget for these very important and worthwhile projects.

You can count on Senator Holland and myself doing everything possible here on the Senate side to hold the line. The Florida House Delegation deserves to be congratulated for the wonderful piece of work they did.

Constitutions in Order: The Senate has confirmed the nomination of Richard A. Mack to be a member of the Federal Communications Commission.

MRS. WILLIAM BURKE

IN A CANDLELIGHT CEREMONY at the First Baptist Church on Friday evening, June 17, at 7 o'clock, Miss Frankie J. Farmer became the bride of William C. Burke. The double ring service was performed by Rev. U. W. Mabein, pastor in a setting of palms, tall baskets of white callulidius, and gladiolus, flanked by lighted tapers in candelabra.

The bride is the daughter of Mr. and Mrs. Fred Farmer, of the Glades. Mrs. Farmer and Mr. Burke is the son of Mr. and Mrs. Pat Burke of Chosen.

A program of nuptial music was presented by Miss Marian Womack, organist, and Dalton Harrison, soloist, sang "The Cause," "You'll Never Walk Alone" and "Lord's Prayer."

Given in marriage by her father, the bride wore a white-length gown of tulle over satin, featuring a basque bodice of chantilly lace over shirred top, attached to a short overskirt, with a jacket of matching lace.

College students in Latin America generally do not have the right to vote because of their age; but in many countries they exercise an influence out of all proportion to their numbers, according to A. Curtis Wilgus, editor of the University of Florida Press book, The Caribbean Contemporary Trends.

Miss Rosilyn Farmer was her sister's maid of honor. She wore a ballerina-length gown of net over yellow tulle, fashioned with a long torso, and a shawl all over strapless bodice, with short sleeved lace jacket and matching hat and accessories.

She carried a cascade bouquet of white carnations and tuberoses and matching yellow flowers or sprays.

Miss Doris Burke, sister of the groom, Miss Cynthia Slater and Miss Judy Farmer, sister of the bride, were bridesmaids and wore dresses identical to the maid of honor's with identical bouquets all in yellow.

Lee Burke, of Chosen, was his brother's best man and usher.

Few herbaceous perennials are better adapted to Florida than the ever popular Day Lilies or Hemerocallis. No other plants furnish so much spring color with so little expenditure of money and effort as do the Hemerocallis. Once established, these perennials bloom each season with increasing splendor making strong color notes against the deep greens of the evergreen shrubby borders.

Day Lilies are thoroughly at home in Florida and will thrive and multiply in a most encouraging manner with a minimum of care. One of the best reasons for their ever increasing popularity is their freedom from insects and disease.

One reason that Day Lilies prosper under adverse conditions is because of their remarkable root systems. A substantial proportion of the roots are thickened ropelike or almost bulbous structures. These huge roots strike deep into the earth and they are so numerous that they encompass a relatively large volume of soil and are tenaciously entrenched. The remainder of the roots are small

Women of the Church was held at the Everglades Presbyterian Church at 8 p.m. Tuesday night. Mrs. Ed Browning presided in the absence of Mrs. Jim Fraser. Mrs. Ralph Pines opened the meeting with prayer and scripture. The program "Anxious Moments" was given by Mrs. Helen Moses, Mrs. Robert Ellis and Mrs. David Motes.

Hostesses for the meeting were Mrs. Robert Barron and Mrs. Ruth Ellis.

Too Late To Classify

By RUSSELL KAY

Rodeos are common in Florida today but there was a time, about 30 years ago when the idea of a rodeo in Florida seemed fantastic. That was the day of the open range when Florida's cattle industry was a dream rather than a reality.

An American Legion Post in Arcadia was heavily in debt, needed money to pay off its building fund. Somebody suggested the staging of a bang-up rodeo. Claude C. Jones was named chairman of a committee to solve the vexing problem of "wo's and means."

To make a long story short, the first All-Florida Championship Rodeo was staged in Arcadia, Nov. 11-12, 1929. Thanks to the tireless effort of Jones and his committee the event was a success. Everyone pitched in to help. Nobody got paid. It was more or less a labor of love. Governor Doyle E. Cayton was honor guest, Earl

Temple of Tampa sent its uniformed boys, the National Guard joined in, while John Ringling of Sarasota provided some fine circus acts and a contingent of trick and fancy riders and ropers.

Since then the All-Florida Championship Rodeo has been Arcadia's big annual event. Dates were changed to July 3-4 and new features added. The event is owned and operated by the people of Arcadia and DeSoto County and they are mighty proud of it.

The 26th Annual All-Florida Rodeo will be staged at Arcadia next month, July 3-4, and offers top notch entertainment for all who attend.

Featured this year will be a quadrille in which the All-Florida Saddle Club will present a "square dance on horseback." This event will close the rodeo.

A gold street parade will be staged Saturday, July 3 and about everyone who can get, borrow, or steal a horse will be in line. Men and women, boys and girls in gay cowboy costumes will participate while clowns, marching units and other features will add color and interest.

Many state and local dignitaries will be in attendance and provision is being made for handling the largest crowd in the history of the event.

Included on the two-day program are such thrilling events as bull riding, breakaway calf roping, saddle bronc riding, trick riding, bulldogging, calf roping, cowgirl contests, high school horses, and the famed quadrille of the All-Florida Saddle Club.

The entertainment committee will see to it that no one goes hungry, and there will be plenty of barbecued beef, cold drinks, and a wide variety of food available. Ample seating arrangements will be provided as well as convenient parking facilities.

All who attend this colorful event will be guests of Arcadia and DeSoto County, and when it comes to playing host you'll find these fine, congenial folks mighty hard to beat. They want you to be comfortable and enjoy every minute of your stay. Good hotel and motel accommodations are available at modest rates.

Arcadia, located as it is in the great range area of South Florida, is ideally situated to stage a rodeo or any other activity connected with the cattle industry. Not so many years ago, a journey through the range

area was looked upon as one of the hazards of driving as it was necessary to be dodging scrub cattle all over the highways.

Those days are gone, and today as you drive through this favored section you find excellent breeds of choice cattle feeding behind fences in fine pastures. The Florida cattle industry has come a long way in the last 25 years, and DeSoto County ranchers have more than kept pace with its advancement.

If you are looking for fun, frolic and entertainment during your Fourth of July holiday, you'll find no better place to go than Arcadia.

Florida Exceeds Goal In Cancer Crusade

The 1955 Cancer Crusade goal of the Florida division of the American Cancer Society has been exceeded by a substantial margin according to an announcement by division chairman Carl S. Swisher of Jacksonville. Latest reports from county units place total receipts at \$412,288 which is the largest sum ever raised by the division. The quota established by the board of directors is \$350,000. Mr. Swisher said that as of today forty-four of the 67 counties have exceeded quotas assigned to them and that this number will be increased when all reports are in. He praised the more than 15,000 loyal and devoted volunteer workers throughout the state who made this report possible and complimented them especially on the effectiveness of the educational phases of the crusade. More than one hundred prints of public education films were in constant use during April and May and approximately one million pieces of educational literature were distributed.

Dr. Donald Gahagan of Fort Lauderdale, division president, announced the receipt of a bequest from the estate of the late Mrs. Barbara Pardee of St. Petersburg in the amount of \$4,214.73; further, that the society has been named as one of several beneficiaries in the will of the late Henrietta Hall Scott of Clearwater. Mrs. Magda A. Eischenchil of Orlando, and Charles M. Wilder of Daytona Beach. He stated that 40 per cent of these bequests will be placed in the national research pool and that the balance will be used in the overall cancer control program of the society in Florida. These sums are not included in the general campaign receipts reported above.

The listening audience in the United States alone is conservatively estimated at more than six million weekly.

A HIGHER CURE
"Nature often cures fractures and sets broken bones better than the greatest surgeon," reads a report from the national meeting of 5,000 family doctors in Los Angeles.

Dr. Harold E. Crow, chairman of the surgical committee at Los Angeles Orthopaedic Hospital, pointed out that an injured and shortened leg often

BAPTIST HOUR FACTS

The "Baptist Hour" is assistant pastor to nearly 30,000 Southern Baptist churches and its ministry extends halfway around the world, making it missionary in scope.

The first Radio Committee was appointed by the Southern Baptist Convention of 1938. In 1941 the "Baptist Hour" went on the air over 11 stations in 11 states under the guidance of its first director, the late Dr. Sam F. Lowe. This was the first marked achievement of the faith that had been shown in radio as a means of proclaiming the gospel to all men.

Current chairman of the Radio and Television Commission is Dr. Martin B. Knight, pastor of the Southside Baptist Church, Jacksonville, Florida. He is assisted in governing the Commission's activities by 25 members representing every state in the Southern Baptist Convention.

Director of the Radio and Television Commission is Paul M. Stevens, who assumed these duties in October of 1953. He came from the First Baptist Church, Ada, Oklahoma, to succeed the late Dr. Lowe. A former Air Force chaplain, Stevens attended Southern Seminary, Western Seminary and has held several pastorates.

The "Baptist Hour" is carried on more than 375 independent radio stations each week in the U. S., over 100 in Alaska, Hawaii, Puerto Rico, Newfoundland, and Cuba, and from Manila in the Philippine Islands to the Far East. Pacific over seven stations of the Far East Broadcasting Company, a non-profit Christian organization.

The listening audience in the United States alone is conservatively estimated at more than six million weekly.

A HIGHER CURE
"Nature often cures fractures and sets broken bones better than the greatest surgeon," reads a report from the national meeting of 5,000 family doctors in Los Angeles.

Dr. Harold E. Crow, chairman of the surgical committee at Los Angeles Orthopaedic Hospital, pointed out that an injured and shortened leg often

grows an inch or so faster and accommodates its length to that of the normal leg in a short time.

Noteworthy also is this: "God cures fractures. Orthopaedists know this often can eliminate surgery and reduce the risk."

Man is a relatively frail creature who would never have survived the long eras of ignorance and primitive living without nature's ability to repair his injured and restore health. The greatest physicians of our day rely on this God-directed script within us—Hollywood (Calif.) Citizen-News.

Churches of Christ, Scientist

How spiritual understanding of the law of God opens the door to individual growth and progress will be brought out at Christian Science services Sunday.

Scriptural selections in the Lecture Series entitled "Christian Science" include the following from Psalms (18:7): "The law of the Lord is perfect, converting the soul; the testimony of the Lord is sure, making wise the simple."

The value of understanding this law will also be brought out in passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, including the following (128:14): "The term Science, properly understood, refers only to the laws of God and to His Government of the universe, inclusive of man... A knowledge of the Science of being develops the latent abilities and possibilities of man. It extends the atmosphere of thought, giving mortals access to broader and higher realms. It raises the thinker into his native air of insight and perspicacity."

REV. JAMESON RETURNS TO STUART CHURCH

The Rev. J. O. Jameson, former pastor of the Community Methodist Church in Belle Glade, has been returned to the Methodist Church in Stuart making his fourth year there.

The announcement was made at the Annual Florida Methodist Conference held recently at Lakeland. Mrs. Jameson also attended the conference.

W.M.U. Meeting

Last Tuesday the W.M.U. held their general meeting which was held at the church. Several enlarged on work of Young People.

Brotherhood

The Brotherhood will have their monthly meeting next Sunday morning at 7:30. They are anticipating a good breakfast after which the committee, which was appointed at the last meeting, will make their report.

Sunday Eve Worship Service

Miss Pat Tatum, who has recently moved to Belle Glade, with her family, rendered an excellent solo at the evening worship service last Sunday. Pat is taking over the Choral Choir for the duration of the summer. Along with her family, Mr. and Mrs. Cristino Figueroa and Sonja, Pat brought her letter.

HOW CHRISTIAN SCIENCE HEALS

"A HEALING OF ARTHRITIS" Sundays 9:00 k.c. 9:30 a.m.

CHURCHES

ter back to the church after having spent the last two years in Fort Lauderdale.

Vacation Bible School

Vacation Bible School will begin August 21.

Youth Fellowship

Every Sunday night after worship service the Young People and Intermediates assemble in the Educational Wing for a period of fellowship. Last Sunday night Jim Bill Geer led the group in a great program. These programs are varied and interesting and the young people are using their talents. All young people are invited to come and join in the fun.

Persuasion

Few are open to conviction, but the majority of men are open to persuasion. (Goethe)

Get on the BANDWAGON!

We're "Sell-a-brating" with Leadership Deals

on brand new '55 Fords!

Summer Bandwagon Sell-a-bration

Now going on!

All year long we've been selling new Fords at a Leadership pace. Now we're "Sell-a-brating" in advance what looks like the most successful sales year in Ford history. We're offering Leadership Deals on all '55 Fords—so you share the benefits.

Why not hop on the Ford Bandwagon—get in on a deal that spells savings to you—now while your present car is worth its top dollar—now while you can enjoy a full summer of fun in America's trend-setting, "GO"-leading, "worth-more" car—the brilliant '55 Ford. Come in at our "sell-a-bration" get our "best!"

With more because it's worth more **FORD**

BELLE GLADE MOTORS, Inc.

V-8 POWER from the V-8 leader... that's what you get in a Ford. And Ford's "Triggen-Torque" "go" means more than just trigger-quick action on take-offs. It gives you a whole new feeling of confidence and security in traffic or on the open road.

YEARS-AHEAD LOOKS... you see it in every "trend-setter." Inspired line. For this '55 Ford is truly the styling "trend-setter." Perhaps you've noticed, too, you see more and more Fords in front of homes where formerly only conflict cars were parked.

SMOOTHER GOING... and you'll go more pleased the reason? Ford's revolutionary Ball-Joint Front Suspension is better than ever. For '55 springs are tilted back to absorb bumps from the front wheel well on and down. You'll find even the smooth roads seem smoother!

All the law is fulfilled in one word, even in this: Thou shalt love thy neighbor as thyself. (Galatians 6:14.)

It was Hobby Day in vacation church school. The children were busy arranging their various collections for display. One little boy seemingly has hobby about him. He smiled and said, "My hobby is collecting friends."

This was an unexpected turn to the Hobby Show. As we thought how empty our lives would be without friends, in our heart we offered a silent prayer of gratitude for friends.

Jesus could say with assurance, "I am not alone, because the Father is with me." Even so, Jesus felt the need of human companionship. Moreover, He made it plain that we can best show our love for Him by being friends to persons everywhere.

Opportunities to do this are open to each of us, no matter how limited our ability to do the things the world calls great. Every day brings opportunities for kindness and loving service.

PRAYER

Father, we thank Thee for the privilege of having Jesus as our personal Friend. May we respond to His love by showing our measure of the love He had for others. Help us to live this day the prayer He taught us, "Our Father who art in heaven... Amen."

THOUGHT FOR THE DAY

"We love the children of God, when we love God, and keep His commandments."

—Glady's B. Mounjoy, Homesaker (Tenn.)

Florida Among 12 States Having Farm Income Rise

Farm income declined in six of the seven Southeastern states during the first quarter of 1955 with only Florida showing an increase over the same period last year, the U. S. Department of Commerce reported today.

The Southeast realized an estimated \$831,963,000 in cash receipts, down 2 percent from the four-month period in 1954. The decline was, however, less than the national average of 3.3 percent.

Florida was one of only 12 states in the nation showing an increase with an advance of 13.1 percent for total receipts of \$274,318,000.

The citrus state's income of \$235,796,000 on crop products was second only to California, Mississippi suffered the biggest decline, 12.2 percent, with income dropping \$14,463,000 to \$103,801,000.

The drop and total receipts in the other five states were: Alabama \$4,092,000 to \$7,552,000; Georgia \$5,580,000 to \$109,950,000; North Carolina \$9,281,000 to \$99,715,000; South Carolina \$5,857,000 to \$45,664,000; Tennessee \$8,735,000 to \$110,053,000.

Property Saved From Fire By Rangers Is Estimated \$900,000

So you think fighting forest fires is all that a forest ranger has to do?

That's what most people figure. And in the past year—the worst fire season in the history of the Florida Forest Service—rangers have been kept pretty busy, hopping from one forest fire to another.

But in between forest fires, rangers also have answered calls and helped suppress fires in rural areas on everything from outhouses to airport control towers.

In their monthly reports, district foresters of the Florida Forest Service reported that fire fighting crews have saved 52 houses since the first of the year.

And, as if that wasn't enough, they've also saved several sawmills, lumber yards, cars, trucks, a dairy barn, a restaurant, and an airport control tower and hangar.

Total estimated valuation of property saved from fire by the rangers amounted to nearly \$900,000.

"Fighting forest fires is a ranger's primary job," State Forester Coulter said. "But our fire control crews are always ready to suppress rural fires of any nature."

July 4th Celebration At Hollywood Beach

Visitors to Hollywood By-the-Sea over the Fourth of July weekend will find this "Gold Coast" resort city a veritable bonanza of entertainment and recreation. A portion of all this excitement and activity will be along the beautiful palm lined boardwalk on Hollywood Beach.

Starting the weekend off will be a teen-age jazz concert and dance at the Flamingo Pool Friday night from 9 p.m. to 11 p.m. Although the affairs are tagged as teen-age parties, almost half of the audiences are usually adult.

Two beauty contests are featured Saturday night along with a barbecue and dance at the Flamingo Pool. The Kiwanis Club of Hollywood Beach is sponsoring this big event which will choose a local queen who will in turn represent south Broward county in the state contest on the same night. Queen's title will be "Miss Mermaid" and she will reign over the event on Sunday.

Sunday features the main sports highlight of the long weekend. On the morning of July 3 the annual Florida Cuda Cup Spearfishing Championships will take place on Hollywood Beach. The event is under the auspices of the National AAU and will feature AAU team competition and open competition.

AAU teams entered include the Tampa Tridents, Pensacola, Orlando Orions and Fort Lauderdale. Teams entered in the open include Miami, St. Petersburg, Pensacola, Tallahassee and Fort Lauderdale. Entrants from the Southeastern AAU district, from Hollywood to Key West, will be decided in district competition Sunday June 26.

Following the state competition on the morning of July 3 and after the presentation of trophies there will be a giant fish fry on the beach.

Monday July 4th marks Hollywood's ninth annual Pioneer Day celebration. A big parade with bands and marching units will thrill the spectators that night. Baby parades, pet parades and many other special events will be featured on the boardwalk and at the bandshell during the day.

A new method of producing concentrated orange juice results in retention of 93 percent of the natural flavor, in contrast to the 10 per cent retained by those so far marketed. The developers say it's significant that the flavor does not need to be fortified with orange peel oil.

No other treatment can do so much to make a sandy soil better for garden use as the addition of organic matter in large amounts, say the authors John V. Watkins and Herbert S. Wolfe, of the University of Florida Press book, "Your Florida Garden."

Florida's phosphate rock deposits contain approximately 19 per cent of the world's total and are expected to support continued commercial production for something like 300 years.

1956 Auto Tags To Have "New Look"

Florida's 1956 automobile license tags will have a new look. The State motor vehicle commissioner Ina Thompson announced Tuesday that the new plates will have a cobalt blue background with white lettering. The 1955 plates have blue lettering on an orange background.

Mrs. Thompson said the change was being made "due to the numerous requests from over the state for a new look in color."

The 1956 tags also will be larger in accordance with a nationwide movement to standardize size. They will be six inches by 12 inches as compared to the present size of 5 1/4 inches by 12 inches.

JUNIOR BASEBALL GAME HERE ON SUNDAY 3 P.M.

Belle Glade will play Ft. Lauderdale on the local diamond in the third game of the 9th District American Legion Junior Baseball Sunday at 3 p.m. The game was originally scheduled at Ft. Lauderdale. Local fans will get a chance to turn out and see the juniors play ball. Don't forget Sunday here at 3 p.m.

More than 20 counties in Florida reported no hospital in operation in 1952, according to John M. MacLachlan, the author of "Florida's Hospitals and Nurses," published by the University of Florida Press.

Florida has developed in hospitality in the last 110 years. When Florida became a state in 1845, the state flag had five horizontal stripes in blue, orange, red, white, and green, and displayed the motto, "Let us alone," according to the University of Florida Press book, "Florida Under Five Flags."

College students in Latin America generally do not have the right to vote because of their age, but in many countries they exercise an influence out of all proportion to their numbers, according to the University of Florida Press book, "The Caribbean: Contemporary Trends."

American industry utilizes phosphorus—product of Florida's phosphate industry—in the manufacture of countless scores of consumer products found in homes, factories and offices all over the world.

Florida's total production of phosphate rock has an annual value of more than \$50 million.

LOCAL DELEGATES ON WAY TO GIRLS' STATE

Marybelle Schlechter and Frances Layfield, delegates to Girls' State are among those from South Florida who left by special bus from Canal Point early this morning for the State capital. Girls' State will be in session from Saturday through next Friday. Sponsors of the local delegates are American Legion and Auxiliary, Post No. 20.

LEGAL NOTICES

MOVING BOARD OF APPEALS MEETING: Public Notice is hereby given that the Zoning Board of Appeals will have a meeting on Tuesday, July 5th, at 11 A.M. in the City of Belle Glade. The meeting will be held before the Zoning Board of Appeals in accordance with Section 2-4-8 (5) of the Code of Ordinances of the City of Belle Glade.

WOMES EXCHANGED—Mr. and Mrs. James Powell are pictured following their marriage on June 11 in the office of H. J. Harris. Mrs. Powell is the former Doris Hirt, daughter of Mr. and Mrs. J. E. Hart of Tabi Road. She attended Belle Glade High School and is in her Junior year. Mr. Powell is the son of Mr. and Mrs. J. E. Powell of Sweetwater, Tenn. and attended school here. He is employed by the Lake Shore Radio and Appliance in Belle Glade and does installation work. The couple are making their home in South Bay.

LEGAL NOTICE (REAL) FRANK C. ANDERSON, JR., Secretary. Pub. June 24, 1955.
